

ASIAN SOCIETY FOR NEUROANESTHESIA AND CRITICAL CARE

SCIENTIFIC PROGRAM

DAY 1, FEB 23 2023

8:00am	8:30am	REGISTRATION				
8:30am	9:00am	Opening session A				
What does ASNACC mean to you?						
9:00 am	9:30am	Opening session B				
Value-based critical care medicine: Evidence reversal and choosing wisely campaign						
9:30am	9:45am	Introduction of Host Country				
9:45am	10:00am	Welcome address				
11:00am	12noon	Research (basic)				
12:00pm	1:00 pm	Satellite symposium				
Focus on Preoperative Neurosurgical Patient Optimization						
Session1: PEDIATRIC and GERIATRIC NEUROANESTHESIA						
1:00pm	1:45pm	PLENARY: The Fragile Brains - The Very Young and the Very Old				
1:45pm	2:00pm	Open forum				
SESSION 2: INTRAOPERATIVE STROKE						
2:00pm	2:45pm	PLENARY: Acute Ischemic Strokes: How Can Anesthesiologists Contribute to Improving Outcomes				
2:45pm	3:00pm	Open forum				
Focus on Preoperative Neurosurgical Patient Optimization			Focus on Recent Advances in Neurosurgical Practice & Its Anesthetic Implications			
SESSION 3: MATERNAL AND PEDIATRIC NEUROANESTHESIA			Session 5: FUNCTIONAL NEUROSURGERY			
3:00pm	3:30pm	Lecture 1: Maternal physiological adaptations of pregnancy and their implications for Neuroanesthesia	3:00pm	3:30pm	Lecture 1: What is Functional Neurosurgery? What are these procedures and their anesthetic implications Broadcast style	
3:30pm	4:00pm	Lecture 2: Traumatic Brain Injury in Pediatric Patients	3:30pm	4:00pm	Lecture 2: An update in the management and challenges in the performance of an awake craniotomy from the perspective of the neurosurgeon	
4:00pm	4:10pm	Open forum	4:00pm	4:30pm	Lecture 3: Anesthesia for Functional Neurosurgery	
4:10pm	4:30pm	Open forum	4:30pm	4:40pm	Open forum	
SESSION 4: CRANIOFACIAL SURGERY			SESSION 6: EPILEPSY SURGERY			
4:10pm	4:40pm	Lecture 1: Craniofacial Surgery in the Philippines: Statistics	Lecture 1: The Dysynchrony behind Epilepsy: The Neurosurgeon's Perspective			
4:40pm	5:10pm	Lecture 2: Anesthetic implications and management in craniofacial surgery.	4:40pm	5:10pm	Lecture 2: The Challenges of the Neuroanesthesiologist	
5:10pm	5:20pm	Open forum	5:10pm	5:40pm	Open forum	
5:20pm	6:00pm	Sponsored Focus Symposium		5:40pm	5:50pm	Open forum
Sponsored INTERACTIVE SESSIONS						
6:00pm	7:00pm	GALA DINNER				
7:00pm onwards						

DAY 2, FEB 24 2023

8:00am	9:30am	MEET THE EXPERT			
9:30am	10:00am	Ice breaker video: Keep Sharp (Build a BetterBrain at Any Age)			
11:00am	12:00pm	RESEARCH PRESENTATION (clinical)			
12:00pm	1:00pm	Satellite symposium			
SESSION 7: CEREBRAL AUTOREGULATION					
1:00pm	1:45pm	PLENARY: Cerebral autoregulation			
1:45pm	2:00pm	Open forum			
Session 8: NEUROPHARMACOLOGY					
2:00pm	2:45pm	PLENARY: Polypharmacy			
2:45pm	3:00pm	Open forum			
Focus - The intimate relationship between the cardiovascular system and the brain			Focus - Neuro Critical Care		
SESSION 9: CEREBRAL ANEURYSM (SNACC Panel 1)			SESSION 12: RESPIRATORY CARE AND VENTILATION STRATEGIES IN A NEUROLOGIC		
3:00pm	3:30pm	Lecture 1: Adenosine-induced Arrest in Clipping of Intracranial Aneurysm	3:00pm	3:30pm	Lecture 1: Lung Protective Strategies in a Neurosurgical Patient
3:30pm	4:00pm	Lecture 2: Subarachnoid Hemorrhage: Immediate and Long-Term outcomes of Clipping of Aneurysm	3:30pm	4:00pm	Lecture 2: Ventilation Management in Spine Patient
4:00pm	4:10pm	Open forum	4:00pm	4:10pm	Open forum
SESSION 10: CEREBROVASCULAR DISEASE STATES AND STROKE			SESSION 13: FLUID MANAGEMENT IN A NEUROLOGICAL PATIENT		
4:10pm	4:40pm	Lecture 1: Anesthetic management of patients with Intracerebral Ischemia and Hemorrhage	4:10pm	4:40pm	Lecture 1: Blood Transfusion Therapy in Neurosurgery
4:40pm	5:10pm	Lecture 2: Reperfusion Injury and treatment strategies	4:40pm	5:10pm	Lecture 2: An Update on Fluid Therapy for Neurosurgical Patients
5:10pm	5:40pm	Lecture 3: Interventional Neuroradiology	5:10pm	5:20pm	Open forum
5:40pm	5:50pm	Open forum	SESSION 14: CRITICAL CARE OF PATIENT WITH CARDIAC DISEASE FOR NEUROSUREGRY		
SESSION 11: UNDERSTANDING THE CONCEPT OF RETURN OF SPONTANEOUS CIRCULATION (ROSC)			5:20pm	5:50pm	Lecture 1: Myocardial Ischemia as a Complication of Subarachnoid Hemorrhage: A dilemma
5:50pm	6:20pm	Lecture 1: Cardiopulmonary Resuscitation (CPR) in a prone position	5:50pm	6:20pm	Lecture 2: Anesthesia Management of a Cardiomyopathic Patient for a Neurosurgical Procedure
6:20pm	6:50pm	Lecture 2: The Science behind the Return of Spontaneous Circulation (ROSC)	6:20pm	6:30pm	Open forum
6:50pm	7:20pm	Lecture 3: Prognostication After Cardiac Arrest and Brain Death	6:30pm	7:30pm	ASNACC Board Meeting
7:20pm	7:30pm	Open forum			
7:30pm onwards	FACULTY DINNER				

DAY 3, FEB 25 2023

8:00am	8:30am	MEET THE EXPERT				
9:30am	10:00am	Ice breaker video: Keep Sharp (Build a BetterBrain at Any Age) Part 2				
11:00am	12:00pm	CASE PRESENTATION				
12:00pm	1:00pm	Satellite symposium				
Focus - Neuro Critical Care						
SESSION 15: THE SCIENCE OF BRAIN AND SPINAL CORD RESUSCITATION						
1:00pm	1:45pm	PLENARY: The Science of Brain and Spinal Cord Resuscitation				
1:45pm	2:00pm	Open forum				
Focus - Neurosurgical Patient Outcomes						
SESSION 16: FUTURE OF MONITORING IN IMPROVING NEUROLOGIC OUTCOME						
2:00pm	2:45pm	PLENARY: Future of Monitoring in improving neurological outcome				
2:45pm	3:00pm	Open forum				
Focus - Traumatic brain injury			Focus - Neurosurgical Patient Outcomes			
SESSION 17: TRAUMATIC BRAIN INJURY			SESSION 19: ENHANCED RECOVERY AFTER SURGERY (ERAS) FOR NEUROSURGICAL PROCEDURES			
3:00pm	3:30pm	Lecture 1: Perioperative optimization and management of the Traumatized Brain	3:00pm	3:30pm	Lecture 1: Neurosurgeon's Perspective	
3:30pm	4:00pm	Lecture 2: Decompressive Hemicraniectomy: Indications, Benefits and Risks	3:30pm	4:00pm	Lecture 2: Neuroanesthesiologist's Perspective	
4:00pm	4:10pm	Open forum	4:00pm	4:10pm	Open forum	
SESSION 18: OPTIMIZATION OF OTHER ORGAN SYSTEMS IN A TRAUMATIC BRAIN INJURED PATIENT			SESSION 20: DELIRIUM AND COGNITIVE DISORDERS			
4:10pm	4:40pm	Lecture 1: Respiratory Management in Acute Brain Injury	4:10pm	4:40pm	Lecture 1: Is Postoperative Delirium Predictable?	
4:40pm	5:10pm	Lecture 2: Acute Cardiac Dysfunction and the Brain	4:40pm	5:10pm	Lecture 2: Steroid use and post op psychosis.	
5:10pm	5:40pm	Lecture 3: Renal Replacement Therapy After Acute Brain Injury	5:10pm	5:40pm	Lecture 3: Long-term Neurocognitive Deficit due to Anesthesia and Surgery: Is it a Fact of Fallacy?	
5:40pm	5:50pm	Open forum	5:40pm	5:50pm	Open forum	
5:50pm	6:30pm	Sponsored Symposium		5:50pm	6:30pm	Sponsored Symposium
6:30pm	7:00pm	CLOSING CEREMONIES
